Liberate Your Kid's Shining Potential

June 29th ■ 10 ESD Clock hours

This delightful, joyous, and fun workshop is unlike any you have experienced! It is a course for everyone, and is especially valuable for parents, care-givers, teachers, educators and anyone who genuinely has the best interest of children in their mind and heart! You will learn fascinating new tools for assisting children in their Journey processes, enhancing their feeling of self expression and self worth!

The skills you learn in this workshop are easy, practical, and can be used in numerous situations: emotional upsets, bullying, ADD, separation, divorce, learning difficulties, behavioral problems, and even to help children cope with death and bereavement. Journeywork gives children tools to deal with challenges, and resolve issues peacefully.

This work is currently being used in schools throughout Canada, England, Ireland, Australia, New Zealand, Kenya and in a large scale "case-study" with 35,000 children in South Africa.

Using these tools when working with children opens them up to the knowledge that they have an inner radiance, like a shining diamond; one they were born with, with unlimited potential. Through the years, this inner radiance, this diamond, can get covered over with hurts, which can obscure their "shining diamond". When they are given the "inner tools" to deal with the hurt when it happens, as early in life as possible, it's the most valuable gift we can give them. Setting them free to shine with confidence in their own innate unlimited potential.

*"It helps me when I'm sad,
it helps me know there is
nothing wrong with me,
it teaches me about love,
it gives me courage to do
stuff, it teaches me that I am
okay the way I am, it gives
me joy, it's the inside that
counts; if I'm bullied I'll get
somebody to help me;
it helps me be happier,
it helps friendship, if I'm mad
- I get to feel better, it's fun,
it helps me be kind, I feel
smarter, it gives me peace."*

Quotes from my Classroom –
Cathy Fasy - Teacher

*"I can honestly count the
number of people on one
hand that I met in my life
before this workshop that
have the love and willingness
to help others that shines
through... I am so thank-
ful for the privilege to have
met you. On a scale of 1 to
10 your workshop was a 10.
Thank you from the bottom
of my heart."*
