Whether you lead a family unit or social organization, own a small business or are in charge of a multi-national corporation, whether you have a “title” or just innately know that others look up to and depend on you being clear and responsible, The Visionary Leadership for Women has been designed just for you!

The Visionary Leadership Intensive for Women

Leading from the Heart

Leadership is truly a journey of self discovery that begins with YOU — by getting clear about who you are, discovering what your unique purpose and vision are and then, most importantly, communicating in a manner that motivates others to take conscious and inspired action! Getting to this place begins here and now at the Visionary Leadership Intensive for Women. This new paradigm of leadership gives you tangible tools that will allow you to operate with laser sharp clarity to strip away anything that blocks or distracts you from getting right to the heart of the matter, so that you can act decisively, on point and with purpose.

It is our intention to steer you onto the path of being a true leader where you will be able to stand in front of others and mirror back to them what absolute certainty, true possibility and conscious action look like. Where you will be able to speak from a place of passion, dynamically expressing the innate power and quality of the human spirit. It is that spirit which is the source of our greatness and ultimate human potential.

“This has been one of the most transformative workshops I have ever attended! I am completely blown away by the power of this process. I still can't believe how much I let go of and how amazing I feel. I feel a great sense of freedom and joy. What we created over the weekend with all the women was beyond anything I could have imagined.” — Melinda

“Wow! What an unbelievable experience! I had no idea that I would leave here feeling lighter, freer and with a renewed spirit... You have inspired me to be me, to be free of the ties that bind and love myself!” — April
