The Journey Practitioners' Program 2010

Once you experience The Journey Intensive, you know the power and depth of Journeywork as taught and designed by Brandon Bays, the pioneer and founder of this life-changing process. Brandon has found that when you personally experience the potency of transformation then the true power of the work becomes a deeper part of you.

Imagine what it would be like to experience one of the most profound healing therapeutic processes available anywhere in the world and how powerful your own transformation will feel. Imagine how liberating and freeing it will be for your own spiritual and personal growth. Then imagine how it will feel to powerfully impact and transform the lives of those around you – your loved ones, clients, and community. How will it feel to be part of the huge wave of awakening and transformation sweeping our planet right now – making a positive contribution to world consciousness with this radical new paradigm for cellular healing and liberation?

The Journey Practitioner Program is the most comprehensive training programme we know of. It takes place over several months and includes seven in-depth modules followed by individual case studies. All courses will be offered in North America for 2008/9.

Brandon knows that it takes much more than being able to do process work to be a first-class Practitioner. You need to know how to get in rapport with your clients at the deepest level, how to discover and elicit their core issues. You also need to know the effect your language patterns are having on their neurology and of course, you personally need to have worked on and cleared out your own deepest issues.

Through the course of these seven powerful seminars it will be as if your being is on a jet plane in enlightenment, your essence will become an inspiring, transforming presence that will ignite the fire of awakening in others, catalysing them to begin their healing journeys. You will become a force for positive change in the world - ultimately you will be the change you wish to see in the world.

At the joyous and healing **Manifest Abundance Retreat**, you'll clear out the blocks that have held you back in life. It is a sweep-clean of the silent saboteurs that have put clamps on your abundance in ALL areas of your life. The retreat is a nurturing and powerfully transforming experience that will allow you to manifest your true heart's desire in everything from your creativity to your financial wealth, from your health to your career and your relationships. **We give only one warning: Be clear about what you want and be ready for it - manifestation happens fast!**

At the **Advanced Skills Workshop** - you'll experience firsthand the powerful skills developed by Brandon over the many years of her private practice and thousands of Journey processes. This is a day where you'll be immersed in the depth of the skills that make Journeywork the most potent, life-changing Program available today. The Advanced Skills Workshop builds the very foundation of the Practitioner Program and will empower you to break through any challenges and work on any issue that might arise no matter how deep or complicated. You leave feeling confident that no matter what life brings you, you know how to handle it with life-transforming Journeywork.

The Liberating Kids' Shining Potential Workshop is an integral part of the Practitioner Program. At this fun filled interactive one day workshop, you'll learn specific skills and techniques that will enable you to facilitate a child in freeing their boundless potential! The skills that you will learn are easy, practical and can be used in all sorts of real-life situations, from dealing with emotional upsets and traumas, separation and divorce, school and learning difficulties, to handling behavioural problems and even coping healthily with death and bereavement. You will leave confident to help and facilitate any child.

Then at the **Healing with Conscious Communication Seminar** you'll learn how to get in rapport with others at an open, honest, heart level - in Source. You'll discover the immense effect our verbal and non-verbal communication has on our physiology, behaviour and emotions. You'll experience a variety of healing therapies and process work, including pain control, phobia cure and behavioural modification - to name just a few. In this powerful and immensely inspiring all-out fun weekend you don't just learn about techniques, you learn how to use these powerful skills gracefully and effectively in every aspect of your life!

At the **No Ego Retreat** with Brandon and Kevin you'll dive deeply into Truth, uncovering the painful 'identity' mistakes we all make. Then through 7 intense days, where you'll laugh like you've never laughed and cry like you've never cried, you'll undergo life-changing process work which will expose the lies, penetrate the traps and burn through the deeply-

ingrained core fixation patterns you've mistakenly taken as your real self. Through this liberating work you'll discover the core pain that has been driving the behaviour and shaping the personality of your friends and loved ones, and you'll understand them in a much deeper and more compassionate way.

For practitioners this course is absolutely essential, as it reveals the 'trap' that drives the core issues of your clients. In working with their identity you are able to clear issues at the deepest level and facilitate true freedom for those you process with.

Then, during the final residential **Practitioner Training Retreat** with Brandon, you'll deepen even further in your own Awareness; deepen beyond all recognition. On Life's Purpose Day you'll uncover your own true purpose in Being - gaining in clarity and enriching your experience of Life. During the week you'll learn how to truly 'dive in' and facilitate Journeywork from a place of Stillness, from Source, letting Grace be your guide. You'll learn how to become a true magician in your therapeutic practice. In this training Brandon reveals the in-depth processing techniques needed to create your own designer work, so that you can work with your clients at a soul level, fluidly and gracefully.

To call the Practitioner Program merely thorough and comprehensive would be a massive understatement. It is an extraordinary experience! In it you will learn to facilitate huge release, growth and healing of others ... by using yourself as the 'guinea pig'. This is not a course for someone of casual interest nor is it for the faint hearted. It is a Program for those with a deep longing for Truth. It is for those with the courage to look at their own issues and heal from them, in order to better facilitate healing in others. It is for those with the commitment to serve from the deepest and the highest place.

Trainers' Training weekend - As trainers for the Journey Intensive we *really* get to soak in the powerful energy. Our support, love and focus is called upon as we rest in Source and create an embrace for new delegates - what an amazing gift to serve others in their process of awakening and healing. Trainers' Training starts Friday night at 6:00 until approximately 8:00 and then all day Saturday and Sunday from 7:15am.

These seven individual modules are each followed by required case studies and self-evaluations - a minimum of 45 in all. These will be evaluated at the end of the course and those qualified will be added to the worldwide list of **Journey Accredited® Practitioners**. This list is made available to anyone enquiring about one-on-one journeywork through The Journey offices. All recommended **Journey Accredited® Practitioners** and their contact details also appear on The Journey website.

As a recommended **Journey Accredited® Practitioner** you will also receive your certification and be entitled to use The Journey name and logo in your stationery, brochures and marketing materials for one-on-one therapies - subject to Journey guidelines.

You are welcome to attend any individual module of the Program (except the final Practitioner Training week), and in order to be a **Journey Accredited® Practitioner** you will need to successfully complete the FULL Program - all 7 modules - within the relevant course year.

Numbers on the Program are strictly limited so if you are interested please submit your application right away - though not all applicants will be selected for the Programme, all applications will be dealt with on a first-come-first-served basis.

We welcome you with all our heart and pray you continue to open, deepen and heal in Source.

Please take time to go through the following pages of this booklet carefully and ensure that you print off and complete all the relevant sections (1 to 8) and send by post to: PO Box 10 Louisville, CO 80027.

The Journey Practitioners' Program 2009/10

During the Program you will be using The Journey as a process of guided introspection, in which you will be getting in touch with powerful emotions and uncovering cellular memories stored inside your own body.

Whilst we will do everything we can to support you during and after this Program, The Journey Seminars Ltd, its employees and assistants cannot be held responsible for either your personal process work or any of its results.

The Journey strongly recommends that you support your physical body to the highest and best during the period of your training. The courses themselves can sometimes involve long hours of study and processing, so adequate sleep and conscious food intake are particularly important during these times. We also recommend that, as far as is possible, you should book a day or two of rest time immediately following the residential retreats for your body and being to integrate prior to returning to work.
